ACRYLIC ROOF SYSTEM

A Sunspace Acrylic Roof is designed as a patio cover and a sunroom roof that will maintain high light transmission throughout the longevity of the product! Built Strong, it's designed to offer protection from inclement weather and harmful UV rays, without blocking the natural light. Acrylic sheets are durable, 100% naturally UV stable and filter/soften harsh light. Sunspace Acrylic will retain 90% light transmission and clarity for 30 years, we guarantee it!

- Superior energy savings and heat control
- Filters Harmful UV rays without blocking natural Light
- Even light distribution
- Proven hail protection
- Patented condensate control
- Heaviest and most rigid panels
- Non-shattering safety glazing
- Integrated extruded aluminum gutter system
- Strong enough to hold fans, lights and plants
- Engineered to support heavy snowloads
- 30 year warranty against yellowing

SHEET ACRYLIC	LIGHT TRANSMITTANCE	UV TRANSMITTING	HEAT BLOCKING
CLEAR	85%	NO	15%
BRONZE	55%	NO	45%
SOLAR COOL	40%	NO	60%
HEATSTOP	50%	NO	75%

INSULATED ROOF SYSTEM

Whether you are considering installing a roof over your current deck or hoping to create a protected carport – at Sunspace, we have you covered! All Sunspace roof systems come in thicknesses of 4" R-16 and 6" R-24. How do you choose thickness? We look at your roof projection, snow load and R Value. All roof systems are durable with high density foam core with aluminum skins laminated on both sides or have an OSB exterior to accommodate standard shingles. Every roof system has an internal water trough system to channel away moisture and comes standard with worry free heavy duty extruded aluminum gutters and fascia.
